### Archives

When creating source code archives, you can choose to include files stored using Git LFS in the archive.

☐ Include Git LFS objects in archives  
Git LFS usage in archives is billed at the same rate as usage with the client.

### GitHub Pages

GitHub Pages is designed to host your personal, organization, or project pages from a GitHub repository.

✓ Your site is published at <https://moonjongjs.github.io/brando/>

Source  
Your GitHub Pages site is currently being built from the master branch. [Learn more.](#)

Branch: master / (root) Save

Theme Chooser  
Select a theme to publish your site with a Jekyll theme. [Learn more.](#)

Choose a theme

Custom domain  
Custom domains allow you to serve your site from a domain other than moonjongjs.github.io. [Learn more.](#)

Save

☒ Enforce HTTPS  
— Required for your site because you are using the default domain (moonjongjs.github.io)

HTTPS provides a layer of encryption that prevents others from snooping on or tampering with traffic to your site. When HTTPS is enforced, your site will only be served over HTTPS. [Learn more.](#)
